

## QUALITY & ENVIRONMENTAL MANAGEMENT POLICY

The management of VICCARBE HABITAT, S.L. commits to:

- **Put customer satisfaction first.** Complying with legal and regulatory requirements, will offer a point of departure for continued improvement in the company.
- **Develop and maintain systems of quality and environmental management** and adapt them to VICCARBE's design, fabrication and marketing of furniture.
- **Establish assessable indicators and objectives for quality and environmental management** and review them regularly.
- **Reduce the environmental impact** of the company's activities as an essential part of its ongoing improvement process.
- **Reduce the environmental impact of our product** on the planet, by ensuring that the design and production of the furniture we manufacture is aimed at continuous improvement based on the knowledge of the environmental aspects generated by these products throughout their life cycle. To this end, Viccarbe has been certified in the EPD Process, which allows us to generate EPDs for our products, through which we can determine their environmental footprint, communicate the results to various stakeholders, and work on their improvement.
- **Strictly comply with the environmental requirements** established by the legislation applicable to the business activities of VICCARBE HABITAT, S.L.
- **Promote the reduction, re-use and recycling** of waste in order to prevent pollution.
- **Comply with the commitment adopted by the hazardous waste minimization plans** and the plan to prevent packaging and reduce waste generated from the packaging defined.

In this regard, the management asks that all employees put this policy into practice, offering them all formative methods and materials necessary.

Beniparrell, 20th January 2025.

**Daniel Benedito,**  
*Managing Director*
